## QUAKE CITY'S TRIAL WITH ARBITRATORS.

### Affiliated Unions Resent Carmen's Side Against United Railways.

#### Company Disclaims Responsibility for the Strike; As- serts Former Employees Must Bear Blame of Vi- olating Contracts—Justice Beatty Asks Counsel to Be Temperate in Language.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Oct. 30.—[Ex-  
clusive Dispatch.] The opening  
meeting of the arbitration board  
which is to pass on the controversy  
between the affiliated unions and the  
United Railroads was held today.  
The board consists of three members,  
Rev. P. C. York, appointed by unions;  
Maj. Frank McLaughlin, by the rail-  
roads; and Chief Justice Beatty, joint  
delegate, who is also presiding mem-  
ber. Albert M. Johnson represented the  
carmen as counsel, while A. A.  
Moore and Judge Garber appeared for  
the company.

#### UNIONS' CONTENTIONS.

Attorney Johnson took up the case  
of the unions, holding that the only  
questions the board was to consider  
were relative to the hours and wages of  
the men, and did not have to do with  
any alleged violation of contract.

He asserted, as a matter of equity

but that the carmen had not done  
their part, and consequently, must  
bear the blame of violating the con-  
tract. The point of his argument  
was that, as soon as the board de-  
cided whether the company had vi-  
olated the contract, they were then  
ready to have the matter of hours and  
wages taken up.

#### JOHNSON BECOMES SEVERE.

In replying to Moore, Johnson be-  
came quite severe in denouncing the  
motives of the company, and used  
rather warm invectives in replying to  
some of Moore's arguments.

Justice Beatty interrupted him to  
request that he be more temperate in  
his language and less denunciatory of  
the statements of opposing counsel,  
stating that he (Beatty) hoped there  
would be no indulgence in personal-  
ities.

Johnson, in reply, said: "I think

DISTRICT ATTORNEY LANGDON,

abuse of the Ruel and Bell strikers.

and justice, that the men should have  
had more pay and shorter hours by  
reason of the abnormal conditions  
prevailing after the disaster of April,  
and that the company was guilty of  
violation of contract in expecting the  
men to do nearly double the work  
after the fire that they did at the  
time the contract was entered into.  
He held that, as far as they were con-  
cerned, the contract with the com-  
pany was still in force in everything  
except as to hours of work and wages,  
which points only were before the  
board for arbitration.

#### COMPANY MUST BE SHOWN.

Moore, in presenting the United  
Railroads' side, disclaimed responsi-  
bility for the strike, asserting that  
the company had shown every in-  
clination to make an equitable adjust-  
ment of the wage scale after the fire.

## BURNS IS COVERING STORY OF "GRAFT."

(BY THE ASSOCIATED PRESS—A.M.)

SAN FRANCISCO, Oct. 30.—W.  
J. Burns, United States secret  
service agent, who is gathering  
evidence against the alleged grafters  
in the San Francisco administration,  
Dist. Atty. Langdon in their proceed-  
ings before the grand jury, today made  
the first statement he has made since  
he became a prominent figure in the  
municipal investigation. Burns, who  
is regarded as one of the most ef-  
ficient secret service men in America,  
replying to a reporter's questions,  
said:

"The evidence gathered by me in  
this case is as complete as in any case  
with which I have been connected.  
But the exigencies of the occasion de-  
mand that not one word of it be made

## LOVED FOR THE ENEMIES HE HAS MADE.

made a change or correction on the  
assessment roll, by adding his own  
name to it. He admitted that he had  
done this so that he might be qualified  
to act as a grand juror. On making  
this statement, he was challenged both  
by the court and Assistant District  
Attorney Heney, and was discharged.

#### OTHER CHALLENGES.

Attorney Shortridge then conducted  
a lengthy examination of officials from  
the Assessor's office for the purpose  
of showing the manner in which the  
assessment roll was made up.

The remainder of the afternoon was  
devoted to the questioning of several  
other men who had been accepted as  
jurors, with the result that Joseph  
Magnin, a merchant, and George L.  
Dealey, a saloonkeeper, were chal-  
lenged by Heney, on the ground that  
they were ineligible to serve, their  
names not being on the assessment  
roll. Judge Graham took the chal-  
lenges under advisement until tomor-  
row afternoon, until which time court  
was adjourned.

The session was without exciting in-  
cidents, and though a large crowd of  
police was on hand in readiness for an  
emergency, their services were not  
required.

## CYCLONE OF REFORM IN CUBAN AFFAIRS.

(BY DIRECT WIRE TO THE TIMES.)

HAVANA, Oct. 30.—[Exclusive  
Dispatch.] Cuba's Congressional  
establishment tonight looks like  
the Prado after the hurricane struck  
it, leaving six trees standing out of  
a thousand. The cyclone of reform  
struck the House and Senate today  
leaving 20 employees out of 114 in  
office.

The cause of the storm was Maj.  
Ladd's report that the Treasury faces  
a prospective deficit of many millions  
of dollars. The center of the storm  
is now over the government depart-  
ments, and if Gov. Magoon keeps on,  
there will not be enough officials left  
in them to get up another revolution.

## INDIANS DEFIANT.

### Wild Excitement in Montana.

#### Depredations Cause Serious Apprehensions, and War Is Arranged for.

#### Women and Children Carried to Places of Safety. More Troops Arrive.

#### Redskin Chief Says Ren- gades Will Die Before They'll Surrender.

(BY THE ASSOCIATED PRESS—P.M.)

HERIDAN (Wyo.) Oct. 29.—An  
messenger has just arrived from  
Moorhead, Mont., saying that the  
wildest excitement prevails in that vi-  
cinity, on account of the depredations  
of the Indians.

Wagonloads of women and children  
are being driven to places of safety, in  
fear of a more serious trouble. The  
Speer ranch is being converted into a  
fort, and is well stocked with guns and  
ammunition. The ranch blacksmith  
shop, a log building, is now heavily  
embanked and loopholes have been  
bored into the walls.

#### WHAT CHIEF SAYS.

"We are going to win. Chief White  
Crow Bull of the Chippewas at any  
post and will not be taken back to  
Utah to starve. We would rather die  
here," is the substance of the answer  
of Chief Kinnapp to the soldiers.  
The Indians are getting bolder and  
pay no attention to the soldiers. A  
fight was almost started late last night.

ABE ATTELL, who, by getting decision last night over Harry Baker, retains title of featherweight champion of the world.

## ABE ATTELL RECEIVES DECISION OVER BAKER.

Referee Robinson's Ruling Unpopular and Draw Would Have Served the Crowd Better But Baker Was Not Robbed—Great Defense Fight.

IF ATTELL had fought as Baker did, there would have been no fight, for both would have been busy covering up and defending themselves. Baker would jab and jump away and cover up. AtteLL was willing at all times to fight or box, and did the best he could to make Baker fight. There were no fouls that I could see. At times when AtteLL led for the stomach, Baker would jump up, presumably to receive the blow foul. It would have been easy for me to have given a popular decision by calling it a draw and so have saved myself from the enmity of a part of the crowd, but I was there to do my duty, and I did it as I saw it, regardless of what others had to say or thought.—Referee Eddie Robinson.

Abe AtteLL is still featherweight champion of the world. He retained the title by receiving the decision over Harry Baker at the end of twenty rounds of the fastest fighting ever seen here, before the Pacific Athletic Club, last night. The decision was unpopular to many persons in the large crowd present. Referee Eddie Robinson would have pleased the spectators as a whole much better had he declared the fight a draw.

Harry Baker collapsed when he heard the decision and fell crying into the arms of his two brothers. The decision did more to damage him than all the blows AtteLL rained on him. After the fight he was roundly cheered and given the commendation of many friends.

To many, Robinson was the most unpopular man in the house. An cry of "lynch him!" resounded from all over the house, and many vile epithets were hurled at him.

**BAKER'S GAME BATTLE.** Baker put up a game fight and his defeat is no disgrace. He was beaten by the champion largely because he was champion.

AtteLL never went against such a hard man to hit as Baker. The latter appeared all arms and hands, and wherever AtteLL swung, hooked or jabbed there was a glove or elbow to meet it. And from that cycle of defense often darted a gloved hand, poking AtteLL in the nose, jaw, or cheek. Baker was backing up and left jab, Baker's chief virtues are told. His right cut little figure in the contest, while the left did not hurt AtteLL. At no time in the fight did Baker have a chance to put AtteLL while on two or three occasions, had Baker's defense been vulnerable at any point, AtteLL might have turned the trick.

The decision went to the champion, and if a decision needs must have been made, it was the only way it could have gone. A draw would have pleased better, but there are none who can say, all things considered, that Baker was robbed. The shade was with AtteLL.

**WASP AND A HORNET.** It was a battle between a wasp and a hornet and both stung and stung, yet missed many attacks. The defense was so good that it became monotonous; the crowd wanted heavier battle. Jab, the upper cut, swings, hooks—all largely went astray or impacted against glove, arm or shoulder. The story of the fight was a repetition of leads and counters with blocks and ducks—and yet no damage done. It was not a popular fight to those who sighed for gore, but it was a marvelous exhibition of self-defense. At the latter game Baker was the best. Even in footwork he was not far behind the shifty AtteLL. But at the fighting and the rough going Abe had the better of it.

In every rally AtteLL was the aggressor, but Baker usually led with his left. AtteLL always looked for an opening, but it never came. Even when he drove Baker furiously to the ropes, the marvelous defense of the latter did not allow an opening of serious consequence and Harry fought back furiously.

There were four terrific rallies that

## GARVIN WINS GREAT GAME.

Allows LooLoos but One Hit in Ten Innings.

Nagle Does Almost as Well During Nine.

Carlisle Makes Fine Catch in Left Field.

Seattle, 3; Los Angeles, 0. Ten Innings.

Some people may think it is fun to stay away from ball games, but those fans who missed yesterday's struggle between the Siwash and the LoLoos, cheated themselves out of the best game of the season. Many have some sort of a dream that some real good game is THE best they ever saw, but it is a pipe dream. A lot of people would have to walk many miles before they could look at a more interesting battle than that yesterday.

It may be well to remark that Pitcher Garvin was slipping them over for the Siwash, and as he was at his best, this is really all that need be stated.

He gave the locals but one hit, and that was a two-bagger by Cravath in the fourth inning after two were out. The game went ten innings and the only local man to reach third base was Bernard in the last of the ninth.

He was hit by pitcher, advanced to second on a bad throw by Mott, and stole third. In this inning Nagle did his best, and then Bernhardt was hit by a wide one. Moore fouled to Mott back of third, and Bernard started for second after the catch. He stopped just as Mott threw to Kane. The throw was a low one, and the ball hit Kane on the knee and rolled into center field. On this Bernard ran to second, on the only error the Siwash made.

Talk about the fans! If the fans didn't see it yesterday they never will. For eight innings both Nagle and Garvin held the teams to one hit each, but in the tenth inning the Siwash landed on Nagle for two doubles and two singles for three runs, and yet, and yet, and yet, there were four errors made, not one of them figured in the runs made. He is a very good pitcher, but not one of them figured in the runs made.

Aside from the beautiful work of the pitcher, the business of the game was done by Carlisle, and he certainly made himself solid with the fans for all time by just one catch. He is a very good pitcher, but not one of them figured in the runs made.

## "CONNIE" MACK COMES HERE TO WATCH NAGLE.

Manager of Philadelphia American League team viewing the work of the Los Angeles club's pitcher yesterday.

SOME of the Los Angeles and Seattle ball players would better be good boys this week, for the bogle man won't get them if they don't watch out. He is here now gapping around and he is none other than "Connie" Mack, the manager of the Philadelphia American League team. Mack has been here several days and has been out to Chutes Park every ball-game day taking a look at the players in action and trying to pick

out a few ripe ones. He is particularly impressed with Pitcher Nagle, the Los Angeles team and thinks he would do well in big-league company. Connie has been asking particularly about Nagle's habits and seems to be well pleased with what he heard and as to Nagle's pitching he should be satisfied with what he saw yesterday. The local fans would rather have him draft Garvin, for he is a better pitcher than Nagle and we need Walter here.

Keniston Catches Clark Off His Game and Wins Very Easily in Slow Time.

A prize fight for the featherweight championship did not have much effect on the size of the crowd at billiard parlors that turned out last night to see the three-cushion game between Keniston and Alfred Clark at Berry's rooms on South Spring street, and while the game was a trifle slow, Keniston won very easily.

He is handicapped on account of defective eyesight, which is not the best for good billiard playing, yet he can see well enough to play a good safety game, and this is what he did to Clark. The game ran for eighty-seven innings and the score was 40 to 30. Keniston's high run was 4, while Clark made 3. The game tonight will be between Lyon and Lacey. Tomorrow night Seymour will play Clark, and Friday night Kennedy will meet Maguire.

### LIPTON NOT FOR FREAKS.

Objects to Racing Machines for America's Cup.

Sir Thomas Will Have Time of His Life Now.

Boston to Feast Him, While Brooklyn Is Ready.

BY STINSON JARVIS.

Boston will entertain Sir Thomas Lipton this evening on the invitation of Mayor Fitzgerald. Tomorrow night the Boston Yacht Club will give him a dinner, on the invitation of Commodore E. P. Boynton. The Yacht Racing Association of Massachusetts will dine and win the Harpoon on Friday evening. There has been a hurry over these dinners. Mayor Fitzgerald got in his invitation first. But when it was proposed in the Boston Yacht Club that a committee be appointed to consult the convenience of the Mayor there was a storm of opposition on the ground that Mr. Fitzgerald had no standing as a yachtsman and that there was no reason why his convenience should be considered. Consequently there will be no yachtsmen at the civic entertainment, and under the mahogany of the amateur sailors the Mayor and his cohorts will stretch no limbs. The Brooklyn Yacht Club will also entertain Sir Thomas at New York.

SIR THOMAS LIPTON, who will make another effort to lift the America's cup.

a practical certainty for itself, and sportsmen do not fancy certainties in the world of sport. "Heads I win, and tails you lose" has no place among genuine lovers of yachting, nor is anything else that is known as a gentleman's game, and there are many in the New York Yacht Club who would not take a decision that would place their own club in a questionable position. What Sir Thomas wants is that the New York Yacht Club shall race for the America's cup under its own racing rules. This seems, at first, to be a peculiar and simple request. But it is nothing of the kind, because this has one set of rules for the racing of its own boats and a totally different system of measurement to control the America's cup racing and protect the eternal advantage caused by the Atlantic Ocean.

WANTS CHANGE OF RULE. As it happens, Sir Thomas is one of the few who think he would be benefited in his chances by a change of rule. There is nothing in the past records on which such a hope can be satisfactorily based. On the contrary, the geographical handicap would be just what he needs unless a scintilla rule could be devised which would control the weight of upper hull and insure sufficient strength in every part of the yacht, and in such a way that she will remain a substantial ocean cruiser after the event.

NEEDS PRACTICAL IDEAS. But the trouble is that every practical racing yachtsman in America knows that in thus declining to accede to any alteration the New York Yacht Club is demanding a continuance of

PROFESSIONAL CADDIES. Many Youngsters Become Experts at Golf and Some Are National Figures.

There is no regular class of caddies in this country; nor is one wanted. There is no room here for the picturesque and frowzy youths and men who haunt the Scottish links and are licensed, like hackmen, by the town authorities. These cheerful characters are content to be caddies all their lives and the height of their ambition is to gain an extra fee by giving lessons to beginners.

Gans Wants to Know. MILWAUKEE (Wis.) Oct. 30.—[Exclusive Dispatch.] Joe Gans, champion, wants to be shown something. To this end it may be possible that the colored fighter will go before a court and ask that the pictures of the several sets of films that are being exhibited in different parts of the country, has failed as yet to account for any of the receipts of these exhibitions. According to the terms of the agreement between Gans, Nelson and the Goldfield club, all moneys taken in there to be divided according to previous contract. Gans now wants to know more about the matter and threatens to ask for an accounting.

Schaefer Defeats Hopps. BALTIMORE, Oct. 29.—Jack Schaefer won the first of a 900-point 18.2 billiard match from Willie Hopps last night, scoring his five-hundredth point in his twenty-third inning. Hopps' score was 325. Schaefer's high run was 55; Hopps' 58. The remaining 400 points will be played tomorrow night, and the final winner of the match will meet George Suttan in a 500-point 18.1 match on Wednesday night.

CONTEST IN CHECKERS. Rowe and Matlin Play for California Championship in Los Angeles Sunday.

W. Rowe of San Francisco and P. Matlin of Los Angeles will play a match contest in checkers for \$100 a side, and the championship of California, beginning Sunday, November 4. A total of fifty games will constitute the match, unrestricted wins and draws to count. The contest will take place at No. 112 Court street, in rooms 17 and 18. Watson will referee and Wright will act as timekeeper. Those interested in checkers are invited to attend.

Rowe is a well-known Coast player of much experience, having won the gold medal championship of San Francisco in several successive years, and he has made good scores against the leading players of the country. Matlin is a young player with less experience than his opponent, but he is noted as a cool, nervy player, and is a strong across-board player.

ENGLISH ARE CONFIDENT. Speak of Astor Tennis Cup as Already Won by Their Women Champion Players.

NEW YORK, Oct. 30.—[Exclusive Dispatch.] English women lawn tennis players and followers of the sport in England are keenly interested in the prospect of international competition in which the women of America and England will contest. These matches are to be for the international challenge cup that has been offered by Mrs. John Jacob Astor and for which Miss May Sutton and Wylie C. Grant have been acting as ambassadors on his account. The current issue of the English National Lawn Tennis Association, takes it for granted that the British will win the trophy easily and speaks flippantly of the competition as follows: "Mrs. Sperry may go to America next summer, if the projected tour of a British ladies' team becomes more than a source of pleasant speculation. With Mrs. Hillyard, Miss Douglas and possibly Miss Pinckney or Miss Eastlake-Smith, members of the team, Newport society would be brilliantly served. Already can be seen the lurid headlines in the American newspapers and also in the mind's eye of Englishmen the spectacle of Mrs. John Jacob Astor handing the trophy to the English captain. The English ladies are waiting only for some high-priced enthusiast in the States to write a formal letter of invitation to those in authority in this country."

Remarkable Walker. A. T. Yeomans, the English amateur champion walker, performed a remarkable feat not long ago by covering a mile in the astounding time of 6 minutes 19.5 seconds, breaking all former world records, both amateur and professional. Yeomans made his appearance for the first time on the British horizon this year, and at each and every contest demonstrated that he is the heel and toe phenomenon of all time. Heretofore the world's amateur record for the mile was held by Frank P. Murray of the old Williamsburg A. C. and his time was 6 minutes 23.5 seconds, made at New York City October 27, 1887. W. Perkins, an Englishman, holds the professional record of 6 minutes 23 seconds, made at London, England, June 1, 1874. In 1874, Yeomans' work completely outclassed either of these. As to his style of moving, there is not the least doubt for from the outset the English expert watched him closely for the least sign of "lifting" or "skipping," but there was none.

Yachts With Many Flags. British yachtsmen are very proud of the records of their boats and always hoist a small flag for each race won. A pretty ceremony is to hoist a string of these flags before going out of commission. Thus telling of the year's work. According to the Yachting World, "There are quite a number of well-known boats getting very near their 100 flags. These include J. W. Leuchars's fifty-two-footer Moyana, which has 85; Dr. William Boyd's Pylis (ex Majel), which has 86; J. N. Goudie's Tresta (nee Alda), which has 89, and R. S. Allan's Estrella, which has 88. In fact, it was a little bit of a disappointment that Moyana and Pylis did not reach the much coveted century last season. Of the boats at present racing, S. Neil Griffith's eighteen-footer My Lady Dainty holds the record with 207 flags."

The Coast for Durnell. NEW YORK, Oct. 30.—[Exclusive Dispatch.] Arthur Rodford, who has done very little riding this year, has signed a contract to ride for Boots Durnell on the Coast during the coming winter campaign. Rodford several years ago was as much of a sensation as Miller is today, but he took on so much weight last year that he found it a hard matter to reduce. He will ride chiefly in stakes in California, as he can do about 115 pounds. Durnell is getting a stable together, and expects to race all winter in California, returning to the East in the spring. He bought Tennessee at the sale of Sam Lazarus's horses, and expects to remain in this section until the sales are over, as he hopes to pick up several other good ones.

## THE CITY IN BRIEF

### NEWS AND BUSINESS.

**His Chum Will Talk.**  
"Jack London" will be the theme upon which Cloudy Johnson will talk at the Woman's Club House this evening and after the talk will read one of the novelist's short stories. Mr. Johnson and London have cruised and worked together for months at a time and were great chums.

**Ball Player Injured.**  
A. Le Brond, who lives at No. 518 Colton street, one of the prominent ball players in the Arizona league, will probably never play again. His hand was crushed in a planer yesterday while he was at work in the mill of the Hughes Manufacturing Company on Alameda street. The crushed member was dressed at the Receiving Hospital.

**Postal Examinations.**  
Examinations for the position of stenographer and typewriter (male) for the local postal service, and for any branch of the service where there may be vacancies, will be held at the Postoffice here on November 14. Examinations for the position of railway mail clerk, scheduled for November 14, will be postponed to this date also. Applications should be filed with the Civil Service Commission in the usual manner.

**Bulldoze Falls.**  
Mattie Lawson of No. 142 Ceres avenue awakened her sister, who was sleeping on a lounge in the parlor, and declared she had swallowed carbolic acid. The woman was hurried to the Receiving Hospital, but as no trace of acid poisoning could be found, and as she was in no immediate danger, she was put to bed. It is said the woman has a suicidal mania, and has several times threatened to kill herself. She is about 30 years of age, and has lived in Los Angeles for some time.

**Normal School Flourishing.**  
The State Superintendent of Public Instruction visited the State Normal School in this city last week and reports that it is in a flourishing condition, and the number of students greatly increased. The school has established the rule that none but high-school graduates can enter. It was thought that the move would lower the attendance, but such has not been the case. There are more students in the freshman class this year than ever before.

**Newman Club.**  
In the Newman Club's meeting last night at Levy's, a delightful paper on "The Twelve Greatest Pictures" was read by W. J. Hampton. Mr. Hampton is known among his friends as an artist of no mean ability, and his descriptions of the art galleries of Europe, which he visited last year, proved deeply entertaining to his listeners. Bishop County, Monaghan Harrett and Hon. Frank J. Murphy, of the Superior Court of San Francisco also talked to the members.

**Men Tossed by Locomotive.**  
While Andrew Douglas of No. 117 Castelar street and Joe Truitt of No. 213 Castelar street were making their way toward Los Angeles along the Southern Pacific tracks last night about 6 o'clock, Alhambra road and Redondo street, a switch engine ran upon them from behind and tossed the two men over its embankment. They were removed to the Receiving Hospital, having sustained lacerations of the scalp and slight fractures of the skull. Both are employed by a railroad company.

**Woman Peace Advocate.**  
Miss Wilhelmina Bain, lately from New Zealand, addressed a good-sized audience in the lecture room of the Pacific College of Osteopathy yesterday afternoon on behalf of "The International Peace and Arbitration Congress." Miss Bain left her home three years ago to travel through Northern Germany, and while there attended the peace congress held in that country. Later she was appointed as a delegate to represent New Zealand at the peace congress which was held in Boston in 1904.

**ALBRIGHT ALL RIGHT.**  
Respectable rooming-house on Third Street Has Nothing to Do With Manhattan Joint.

Through a misunderstanding in street numbers in a story regarding alleged fraudulent registrations printed on Monday, the Albright, a respectable rooming-house at No. 113 East Third street, was confounded with the Manhattan, "Jim" Dunne's resort at No. 115 East Third street, and with a tenement in the rear of the Albright known as No. 113 East Third street, which is reached by an alley.

It is only fair to state that the Albright is a staid and respectable rooming-house occupied by men roomers only, most of whom have lodged there for from one to four years. The only woman in the place is Mrs. Albright and an aged companion.

**France Reinforces Her Squadron Near Morocco—Her Citizens Demand Removal of Governor.**  
(BY THE ASSOCIATED PRESS—A.M.)  
TANGIER, Oct. 30.—The French cruiser Jean d'Arc has arrived here, having on board 200 marines, in addition to her regular crew. She will remain at this port for the present. The French cruiser Galilee has left Tangier for Arzila. Hadji Abd-El-Selam, the Governor of Morocco, has not yet refused to permit the chancellor of the French consulate to investigate the case of the Frenchman who was wounded by Moroccan tribesmen, but has grossly and publicly insulted French subjects who insist that France shall demand the Governor's immediate dismissal.

Daniel Kier's three-year-old son saved him from a heavy sentence for burglary yesterday morning in Justice Austin's court. The little-headed youngster toddled into the prisoner's dock, climbed on his father's knee, threw his arms around the neck, and hugged the prisoner with his baby strength. The hug and cry won the day.

Arrested on complaint of a detective, Kier, who was a clerk in the Southern Pacific depot, was charged with burglary.

**Neighbors' Quarrel Settled.**  
A bunch of grapes, a stick of dynamite and a high board "spite fence" figured in a sensational case yesterday brought by H. "That old man threw a bunch of apples in my face, called me a name, and said I ought to do business on Alameda street," was the story of Mrs. Rebecca Richlin, a young and pretty woman. ## Miss Herron's Coming Out.

The beautiful home of Mrs. Rufus H. Herron at No. 2700 Severance street presented a rare scene of loveliness yesterday afternoon when Mrs. Herron gave a brilliant reception in honor of her young daughter, Miss Edith Herron, one of the clever and delightful debutantes. She is possessed of a fine soprano voice, and after her graduation from the Marlborough School at Philadelphia. At social gatherings here and in the North and East her voice has won high praise.

In the lovely floral scheme used through the home, rare hot-house flowers and southern smilax were combined with artful grace, and the living-room, where the receiving party stood, gave evidence of the popularity in which the young beauty is held, for all the flowers here were gifts from friends. Here southern smilax and great jars of maidenhead ferns were a background for gorgeous clusters of American Beauty roses, bridemaids' roses of snowy hue, shell-pink Enchanted carnations, rose chrysanthemums, and great fluffy bunches of chrysanthemums, shading from deep red to the hues of gold and silver. In the hall the golden-blossomed Japan were here used in the fashion. Pale pink and green was the color scheme exemplified in the dining-room decorations. The mantel was gilded with Enchanted carnations and southern smilax and the round table spread with exquisite lace bore a centerpiece of chrysanthemums of rich autumn hues. Pink shaded candelabra and pink bon-bons further enhanced the beauty of the affair. A large porch was inclosed and festooned with smilax and in one corner from a bower, punch was served by a bevy of pretty maidens. Here the guests were entertained from 3 until 5 in the afternoon and the other half from 5 until 7 o'clock and at the latter time Miss Herron's young friends have been invited and also a number of bachelors were guests. Kammermeyer's Orchestra furnished music through afternoon and evening.

Receiving with Mrs. Herron and her daughter was her daughter-in-law, Mrs. F. Irwin Herron, and those who assisted in entertaining. Among the afternoon included Mrs. Alfred Solano, Adna R. Chaffee, Will Stewart, George S. Patton, Charles C. Carpenter, Robert Pittman of Pasadena, Lee Chamberlain, C. F. Rosecrance, J. D. Mercereau, E. F. Pierce, Sumner P. Hunt, J. N. Van Noy, Edward D. Silen, John H. Norton, George W. King, Wesley Clark, A. G. Wells, J. Ross Clark, E. P. Clark, Albert Crutcher, Stephen C. Hubbell, Baker P. Lee and Homer Leachin.

During the later hours the following will assist: Misses Walter Jarvis Barlow, Randolph Miller, Basil Barlow, Howard F. Huntington, George J. Denis, Dwight Whiting, Coma Morgan, Henry Carleton Lee and C. C. Parker.

Attractive belles who assisted both in the afternoon and evening included: Misses Huston Bishop, Lois Allen, Helen Chaffee, Susan Carpenter, Lela Chamberlain, Mary Hubbell, Katherine Washford, Laura Solano, Gwendolyn Laughlin, Louise Burke, Beatrice Wigmore, Katherine Mellus, Agnes Brown, Annie Van Noy, Clara Mercereau, Muriel Stewart and Rosecrance and Jessie McFarland. The matrons took turns at the coffee and chocolate urns and a group of young girls who will make their debut in a few weeks. Mrs. Herron presided at the punch bowl. They included: Misses Andrietta Glanville, Marjorie MacNeil, Alberta Denis and Alice Elliott.

## Sigma Beta Delta's Hard Time.

Members of the Sigma Beta Delta Club entertained their friends on Friday evening with a jolly "hard time" party in celebration of Halloween, given at the home of Miss Tessie Lewis of No. 448 Park View street.

Decorations were most awe-inspiring, for black cats, cross-bones, snakes, bats and skulls combined with the club pennants and pepper boughs, were most gruesome. The dance programmes were plunk and white checked calico. Between dances guests were ushered to weird witches, who told wondrous fortunes. Refreshments were served with tin spoons and wooden dishes, and consisted of ice cream served in tiny pumpkins and stick candy and cakes, containing a thimble for the old maid, a dime for the wealthy and a button for the bachelor, were eaten with relish. Upon leaving, each guest was presented with a nut, and upon opening the nuts pieces of plain paper were revealed, which, when held over the candle light, spelled all sorts of fine things for the beholders. Prizes were won by Dorothy Field Simpson and Wilmet Wickersham.

## Today and Tomorrow Last Call

33 1-3 Per Cent. Stock Value Increase Staring You in the Face. Heck Gold Mining Stock Advances Thursday, 9 P. M., From 15c to 20c

Can you conscientiously sit by and not grasp this opportunity. Have we not iterated and reiterated the fact that this property is surrounded on all sides by mines that have and are producing millions of dollars in gold? Do you know that we are going down rapidly with a force of competent miners, and that our superintendent is the president of the company, and is guarding every dollar of the public's money? Do you know that this company has practically \$600,000 in its treasury and that there is no chance for us to fall down in the development? Do you know that this company offers the best of credentials right here in Los Angeles? Do you know that most of the people connected with this mine live right here in your own city? Do you know that this mine shows up in assay values far greater than any other mine at the same depth in this particular territory? Do you know that our allotment of stock that we hold to sell will net the company over \$15,000,000 and that it will still leave in the treasury enough stock to be sold in case of emergency, which will net the company over \$1,500,000. Now, doesn't it stand for reason that when you invest your money in a property of this kind that you are going to get the very best your money can buy?

You are getting in with good people, in a good mine, in a good territory, under good management, and you certainly have an opportunity here of a lifetime—an opportunity that cannot remain open always.

## There Are But 60,000 Shares of This First Allotment Left, and It Must Be Sold at 20c, 30c and 40c at Least

Under our contract, we must get this price for it, and it is well worth it, because every day is adding to the treasury of this company.

Remember we are not sitting around waiting to get enough money to go ahead with. We are actually developing this property, which is well worth any man's consideration.

We are not lying idle, simply for the sake of getting the money from the people for ourselves or our treasury, we are here to prove up, and the more you seek the better we will like it.

The money is being spent in actual intelligent work, right on the mine at this moment.

Therefore, it is not better to invest in a company that is treating its people honestly and fairly than it is in a company whose mines may never be developed—and we know of hundreds of such cases. I'll wager you are the holder of stock in some mine at this minute that is lying idle.

Remember we are not saying this is the best mine in the world; nor is all the element of risk eliminated. If it were you would not be able to buy this stock at 15c or 15c or 15c; but we do say that your money is being honestly spent, and you will receive the benefits of your investment in the actual development work, and unless every known indication in mining fails we ought to have a producer in a year and a half.

Remember we have five full claims and a fraction—enough property to make as many mines, and if each of our properties were capitalized at one million it would make our total capitalization over five millions of dollars, and good value at that, but remember that our whole group of mines is only incorporated for \$1,500,000, with a most liberal treasury allotment. Food for thought.

Also, remember, it is incorporated under the laws of Arizona, and its stock is forever non-assessable.

If you will come to this office we will tell you honest truths that will make you sit back and take notice. We will bring to bear evidence that will be hard to sidestep.

We know all about the mad rush of excitement that is tending toward other places as well as Arizona, but is it not better to have a bird in the hand than two in the bush? A good mine in a good country, surrounded by producers, makes a good company to be in.

The chances today are better right in Arizona than in any other section of America. This is a pretty strenuous statement, but we have the evidence to back it up, and it will not take long for us to produce that evidence.

We can all reserve the privilege of examining this property and if it is not what we say it is you need not invest a dollar.

We cordially invite you to come to our offices tomorrow night, Thursday, or Thursday night—in fact, any other time you may desire, and let us back up what we have said, but we would advise you to come in before Thursday night, so as to reap the benefit of this next increase.

What we have said above is enough to satisfy any sane man or woman. Now it is up to you, so come along.

### RIVERSIDE TO BE LIGHTED.

Movement Started to Put Electric  
Wires Under Ground That New  
Lamps May Be Installed.

RIVERSIDE, Oct. 30.—Telephone  
and telegraph companies will be re-  
quested to put their wires under-  
ground in the business part of the city.  
In order to make possible the installing  
of a system of ornamental cluster  
lights similar to that in use in Los  
Angeles and Pasadena.

The plan has been under considera-  
tion for some time, but it has not  
been considered feasible to put in the  
lights so long as the principal streets  
present. A resolution was passed by  
the City Trustees this morning or-  
dering the companies to remove their  
poles and wires from Main street, be-  
tween Fifth and Tenth streets, and  
between Seventh, Eighth and Ninth  
streets, between Market and Orange  
streets.

The Chamber of Commerce is back  
now to push the plan and hopes  
now to push it through to completion.  
Eleven blocks will be included in this  
ornamental lighting scheme. Iron  
poles, each side of the street, and  
the lights will follow the mission  
style in harmony with the architec-  
ture of many of the principal build-  
ings along the thoroughfare to be  
lighted. The poles will be in the  
form of mission bells, clustered about  
the top of the poles.

### NEWPORT TOWN PEOPLE SORE.

EXEVED ARE THEY OVER THE  
HIGH SCHOOL BONDS.

Result of Election in Which the  
Polling Place Was at Huntington  
Beach May Be Contested—County  
Superintendent Says That the  
Facts Are Not Before Him Yet.

NEWPORT, Oct. 30.—The election  
which was held at Huntington Beach  
Saturday and which resulted in favor  
of \$40,000 bonds for building a high  
school for the Las Bolsas Union High  
School district, will be contested, so  
says Newport.

The grounds of contest will be that  
there was only one polling place, and  
that no register of names of voters  
was available, and that therefore  
many people voted who had no legal  
right to do so.

Another objection registered by  
some of those opposed to the issue of  
bonds is that the amount voted is in  
excess of the sum necessary, the ar-  
gument being that a building good  
enough for the present needs could be  
built for half the amount called for.

The district embraces Springdale,  
Ocean View, Fountain Valley, Hun-  
tington Beach and Newport Beach, and  
was formed this year by reorganizing  
the old Las Bolsas High School  
district and letting those districts out  
which wished to be related to the  
County School Superintendent J. B.

Nichols says he has heard nothing of  
the rumored dissatisfaction, and that  
the charge that only one polling place  
was provided, was strictly in accord-  
ance with the law, and that every step  
of the proceedings had been handled  
by the District Attorney, and had been  
approved by him. If there was no  
register of voters at hand during the  
election, Mr. Nichols said those inter-  
ested had their recourse by challeng-  
ing the suspected votes and should  
have done so, but as he had not been  
informed as to the result of the elec-  
tion, and could not be in possession of  
all the facts until the official canvass  
was made, he was not in a position to  
say anything definite on the subject  
of whether or not a contest was con-  
templated.

EXTEND ISLAND.  
Extensive improvements are to be  
made on Newport Island and are to  
be on the same lines as those being  
making Naples attractive. W. S. Col-  
ins, owner of the island, will make  
improvements probably not so elabo-  
rate as those of Naples, but will make  
it an ideal summer place. A contract  
has been entered into with Mr. Col-  
ins by two local contractors to dredge  
canals and fill the low places on  
the island to three feet above high  
tide. These men are to build a dredger  
and complete the work by the open-  
ing of next season.
